

New Hall Curriculum Statement Outdoor Learning

At New Hall, the ambition for all is **to love to learn for life**. Our values are the **golden threads** of our curriculum. We want our pupils to become:

Critical Thinkers:	Questioning, checking and challenging
Collaborative Learners:	Responding, supporting, building on and joining in
Creative Minds:	Connecting and comparing ideas and exploring possibilities
Caring Individuals:	Thinking, listening, empathising and respecting others

Intent

We intend outdoor learning to provide pupils with opportunities to have hands on experiences through which they develop their communication, problem solving, **creative thinking** skills and **collaborative** teamwork.

Our outdoor learning is planned around our curriculum, which gives depth, enrichment and a connection to the natural world for our children. Children are encouraged to be **caring** individuals by respecting the environment.

Pupils will explore and learn throughout the year, experiencing the seasons and changing nature around them.

Implementation

We intend outdoor learning to provide pupils with opportunities to have hands on experiences through which they develop their communication, problem solving, **creative thinking** skills and **collaborative** teamwork.

Our outdoor learning is planned around our curriculum, which gives depth, enrichment and a connection to the natural world for our children. Children are encouraged to be **caring** individuals by respecting the environment.

Pupils will explore and learn throughout the year, experiencing the seasons and changing nature around them.

Impact

Pupils will develop resilience through challenging activities and working in all weathers. They will develop co-operation skills and, as these activities are largely active, they will have improved physical activity and wellbeing.

Children will find a connection with the natural world that can last a lifetime.
