

English

Reading & Phonics This term we will introduce more alternative versions of the digraphs we have learnt so far, for example '-y' as in 'happy' rather than 'joyo'. In our reading lessons we will continue to read texts that match and stretch our ability. Our focus will be on fluency and comprehension and we will be expected to answer all questions in full sentences.

Writing & Spelling We will continue to use our phonics to support our spelling. In writing our focus will continue to be on handwriting, capital letters and full stops as these are the essential skills we need to master before moving to Year 2.

Maths

We will continue to practice number formation, and progress our understanding of place value and addition and subtraction of numbers. This term we will work within 50 rather than 20.

We will also be completing the daily Mastering Number programme that helps us build our number fluency.

Science

Our Science topic for this term is 'On Safari'. We will identify a variety of common mini beasts as well as classify, describe and compare them. We will use the key vocabulary of insect, vertebrate and invertebrate to help us work like a scientist.

Our School Rule -

Respect yourself, others and the environment.

Year One Curriculum

Overview Spring 2

This half term we will be learning...

PSHE

In PSHE, we will begin to explore how to be healthy. We will think about how to make healthy choices, stay clean, medicine safety, road safety and mental health.

Geography

Our geography work will explore what the weather is like in the U.K: looking at the countries and cities that make up the United Kingdom and keeping a daily weather record to find out more about hot and cold places in the UK.

Art

In art we will learn about primary and secondary colours, colour mixing techniques, and how to apply these skills in both painting and printing. We will explore and create a painted plate in the style of an artist to understand colours and applications in art.

PE

PE this term focuses on ball skills. We will be learning how to control and pass a range of balls whilst both standing still and moving. This will help us be ready to play ball games in Year 2.

RE

Throughout this term our class religion will continue to be Christianity. We will also continue to explore other religions through our weekly RE lessons.

Music

Music will be taught during the Summer term.

Computing

Computing this term, will explore gathering data and creating charts using JIT 'Chart' and 'Pictogram' tools. We will also continue to learn how to use technology safely and understand

Year 1 will visit Forest School regularly during the Spring Term where they will learn about the plants and animals in our local environment.
