

## English

**Reading**– Children will read a range of texts whilst continuing to develop their comprehension strategies. Group reading will take place weekly, as well as opportunities to use echo, choral, paired and whole class reading, with a focus on reading fluency.

**Writing**– Children will begin the half-term by studying a story called 'The Girl who Became a Fish', producing their own narrative about becoming an animal. The children will then explore a poem called 'I Am Every Good Thing' and will write their own poem describing themselves, ready to be passed on to their new teacher.

**Spelling/Phonics**– Our spelling sessions this half term will focus on revising the challenge words we have come across during our time in Year 3.

## Maths

**Time**–Children will build on their prior knowledge and developed their time telling skills through learning how to use a digital clock and solve problems with time.

**Shape**–Children will learn about angles and different lines including parallel lines and perpendicular lines. From this, they will learn how to draw shapes accurately.

**Statistics** – Children will learn how to read and analyse data from pictograms and bar charts.

## Science

**Working Scientifically**– After finishing the final sessions of our Mirror Mirror topic from Summer 1, the children will be conducting a range of experiments and investigations to try and answer scientific questions.

## Our School Rule -

Respect yourself, others and the environment.

## Year Three Curriculum

### Overview Summer 2

This half term we will be learning about...

## PSHE

**Changing Me**–Children will explore how human's bodies change internally and externally as they go through the stages of life—from babies to children, to teenagers and finally to adults.

## Geography

**Are all settlements the same?** - Children will learn about different settlements, land use and the difference between urban and rural areas.

## Art

**Abstract Shape**– Children will explore how to transform 2D card shapes into 3D structures and sculptures. They will abstract shapes and space, construct 3D objects, and understand the difference between 2D and 3D art.

## PE

Children will be practising their athletic skills and joining in with team building

## RE

This half term, we will be exploring the dispositions 'Being Courageous and Confident' and 'Being Hopeful and Visionary..

## Computing

Children will decode and debug algorithms using a variety of computer systems.

## French

**A circle of life in French**–Children will build on their knowledge and use of indefinite article (un/une). They will compose a range of sentences using appropriate vocabulary and decode new sentences using language already known.

**Swimming lessons** for a small group of children will take place each Monday afternoon. You will receive a letter when it is your child's turn.
